

CLASSIC

CLASSIC Industrial Barrier Materials

CONSTRUCTION

Coextrusion coated and laminated materials: combination of several technical materials like e.g. kraft paper, paperboard, scrim and non-woven, printed, unprinted, lacquered

TYPICAL APPLICATIONS

Industrial packaging: cut size and folio size, reel wrapping

Construction materials: reinforced and insulation laminates

SPECIAL FEATURES

Depending on the structure: excellent mechanical properties (tear resistance) good insulation properties, low WVTR (Water Vapor Transmission rate), heat sealable, glueable, printable, recyclable

DELIVERY

Reels maximum width 2100 mm

Printed materials: 2-colour flexoprinted maximum reel width 2000 mm,

8-colour flexoprinted maximum reel width: 850 mm
